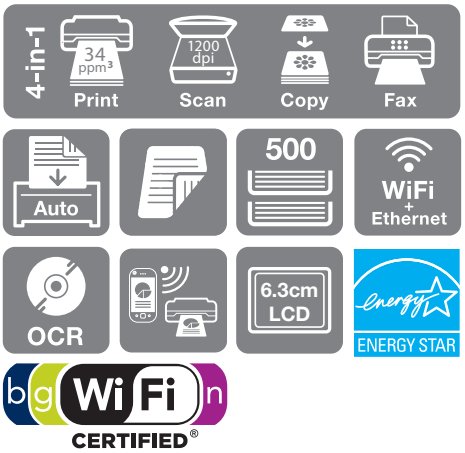
Epson **WorkForce WF-7525**

DATASHEET



It's hard to find the combination of both A3+ printing and A3 copying, scanning and faxing in one device on the market today. That's why Epson has added A3+ all-in-ones to its range for the first time.

Designed with the needs of both small businesses and home offices in mind, the WorkForce WF-7525 is one of Epson's two true A3+ multifunction printers and the flagship model in this range. It's ideal for users such as graphic designers, architects and engineers and represents the perfect blend of affordability, reliability and speed, boasting a range of value added features for greater productivity.

Demanding offices can reduce paper usage by up to 50% with super-fast A4 double-sided printing at up to 7.7 mono and 5.2 colour pages per minute[4].

Productivity is enhanced with dual paper trays carrying up to 500 sheets for less frequent refilling and media flexibility, and a 30-sheet Automatic Document Feeder for multiple page scanning, copying and faxing. Its ADF also offers double-sided document reproduction in A4 size. Multiple users can share these benefits as Ethernet and Wi-Fi connectivity come as standard.

Producing business-quality text and vibrant colours, the economical WF-7525 provides savings of up to 50% cost per page[1] and up to 80% lower energy consumption[2] compared to competitive lasers to further reduce costs and environmental impact. Alongside this it is more affordable than the laser equivalent.

The WF-7525 also comes with Epson Connect, offering even more flexibility and freedom, allowing users to quickly and easily print documents and images wirelessly from smartphones and tablet PCs[6]. Additionally, users can print from anywhere in the world by emailing documents and images directly to the printer.
